SKILLS

- Software development
- Data structures
- API development
- MongoDB
- DSA

EDUCATION

Expected in 09/2027

Bachelor Of Technology - BTech:

Computer Science

Assam Down Town University

Guwahati, Assam, India

• 8.52 CGPA (till 5th Sem)

04/2022

AISSCE:

Mathematics and Computer Science

Kendriya Vidyalaya

Silchar

CERTIFICATIONS

- Programming with JavaScript
- Postman API Fundamentals Student
- Expert JAVA
- MongoDB Certified Associate
- Developer Java
- Official Open Source

Devdeep Singha

SUMMARY

I am a B.Tech Computer Science student at Assam Down Town University with a strong focus on backend engineering, cloud systems, and database management. Driven by a passion for solving real-world problems, I enjoy architecting efficient server-side applications. My technical toolkit includes Java, JavaScript, Node.js, MongoDB, and GCP, and I am currently sharpening my skills in Spring Boot for enterprise-level development. What I've Built: TrackWise - A full-stack application leveraging React, Node.js, and MongoDB.

EXPERIENCE

GDSC, AdtU - Member

09/2023 - Current

Guwahati, Assam

- Collaborated with diverse teams to develop innovative project solutions and drive successful outcomes.

TECHNICAL PROJECTS

TrackWise | Node.js, React, MongoDB, Express

[<https://trackwise-app-nine.vercel.app/>]

- Built a full-stack tracking app with a React UI and a Node.js REST API.
- Designed MongoDB schemas for optimal data retrieval and user state management.

IoT Attendance System | C++, React, IoT, MongoDB

[<https://github.com/devdeepkonsam/iot-attendance>]

- Developed an automated backend to process real-time data from IoT hardware.
- Structured a central database to log daily attendance records with minimal latency.
